SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Race Format

The Championship is conducted in a sprint race format.

Each race round consists of three races, each with a distance of 55 km.

Qualify

Duration: 15 minutes. **Format:** Cars will be released from the pit exit at 10-second intervals.

Qualification Process

Drivers will be assigned to one of three lobby rooms for the qualifying race. The top 16 drivers from the qualifying session will advance to the main race. **Important:** Drivers are not allowed to exit the qualifying session without approval from the race stewards. Unauthorised exits will result in a reprimand and a deduction of one championship point.

Qualification Maxima (QM)

Drivers who receive Success Ballast (SB) from the previous race round will be granted a Qualification Maxima (QM) to provide a wider qualifying window during the qualifying session. The QM is based on the fastest qualifying lap time (Pole Position). The following allocations apply:

Success Ballast	50kg	40kg	30kg	20kg	10kg
Qualification Maxima	102.0%	102.0%	101.5%	101.5%	101.0%

Example: If the reference lap time for this race is 1:13.574, the corresponding QM times would be as follows:

QM %	102.5%	102.0%	101.5%	101.0%
QM Time	1:15.414	1:15.046	1:14.678	1:14.310

Car	Driver	Game Tag	Qualify	Pos
10	Karl H.	bibiffkaka	01:13.574	1
6	Kit T.	KAGA_OGRE	01:13.586	2
86	Ka Hei C.	GodFoot_R34GTR	01:13.642	3
27	Kris L.	GodHand_S2000	01:13.777	4
92	Stanford C.	ZCR_BOSSCHAUFERS	01:13.897	5
13	Alan T.	X_MrTaipa_X	01:13.933	6
21	Franco W.	rocket_franco	01:13.936	7
47	Winson W.	WMBimmer	01:14.013	8
22	Bem H.	Panda_Specialist	01:14.486	9
81	Peter F.	YummyAaron	01:14.516	10
76	Leo L.	R4m_R4mborghini	01:14.528	11
23	Billy C.	s3audi	01:14.558	12
97	Mickey L.	mic_evo	01:14.608	13
9	Kelvin H.	Hoo12241224	01:14.626	14
7	Dominic C.	nic315nic315	01:14.640	15
85	Kokyo C.	FSR_Kokyo	01:15.024	16
49	Ray T.	Jafitzz_2nd	01:15.095	17
3	Fai C.	no9nathan-road	01:15.153	18
24	Kay Y.	ykyu15	01:15.270	19
19	Ben S.	Ferrarihk	01:15.468	20

Drivers carrying Success Ballast (SB) must qualify within these times to receive priority entry to the main race. If a driver's qualifying time is within the top 16, they will secure a position in the main race based on their qualifying performance. **In specific scenarios:** If a driver carrying SB qualifies within the QM, they will replace the driver who qualified in Position 16th for the main race. If multiple drivers carrying SB qualify within the QM, they will be placed with those drivers who qualified for Position 16 and above. If a driver carrying SB qualifies outside the QM, they will not gain entry to the main race. **Note:** The QM rule does not apply to drivers who received SB after joining the Championship after Round 1 or who were absent from the previous race round.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Main Race Structure

Start Type: Standing Start. **Race Breakdown:** Race 1: 12 Laps, Race 2: 12 Laps, Race 3: 12 Laps

Race Grids

Race 1: The starting grid is based on the results of the qualifying session. **Race 2:** The starting grid is determined by the finishing order of Race 1. The winner of Race 1 starts in first position. The second-place finisher starts in second position, and so on. Competitors not classified as finishers in Race 1 will be placed on the starting grid after the last classified competitor based on the number of laps completed. **Race 3:** The starting grid is based on the finishing order of Race 2, with a grid position reversal rule applied. A specific number between 6 and 12 finishers from Race 2 will be randomly chosen after the race. For example, if the number 8 is chosen, the car that finished eighth in Race 2 will start from pole position, followed by the seventh-place finisher, and so on. The remaining grid positions follow the finishing order of Race 2. If a driver within the reversed grid positions receives a time penalty related to Race 2, their grid position will revert to the finishing order of Race 2 unless the penalty pushes them out of the reversed positions. **Grid Position Drawing:** If fewer than sixteen drivers are in Race 2, the grid position reversal will be drawn according to the chart below. There is no pole position drawing if there are nine drivers or fewer. The driver who finished fifth in Race 2 will start from pole position, followed by the fourth-place finisher, the third-place finisher, and so on.

Number of Drivers in Race 2 / Draw Position						
16	15	14	13	12	11	10
6th – 12th	6th – 12th	6th – 12th	6th – 11th	6th – 10th	6th – 9th	6th – 8th

Race Start Procedure

At the start of each race, the Race Steward will create a new race room. All participating drivers must join the designated race room. The Race Steward will arrange the starting grid according to the regulations. **Warm-Up Lap:** After the grid is set, the Race Steward will signal the start of a warm-up lap. All drivers are required to complete one warm-up lap at a moderate speed, starting from the pit lane. **Race Commencement:** The race will officially start once all cars have completed the warm-up lap. **Race Restart:** If network or hardware situations cause any starting situations. The Race Stewards have the right to call for a Race Restart.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Awards

Race Awards

Points will be awarded to the drivers listed as classified finishers in the Final Result of each Race.

1st = 20 points	2nd = 17 points	3rd = 15 points	4th = 13 points	5th = 11 points
6th = 10 points	7th = 9 points	8th = 8 points	9th = 7 points	10th = 6 points
11th = 5 points	12th = 4 points	13th = 3 points	14th = 2 points	15th = 1 point

For races with fewer than 8 cars, points will be awarded to drivers classified as finishers in the Final Results of each Race.

1st = 8 points	2nd = 6 points	3rd = 5 points	4th = 4 points
5th = 3 points	6th = 2 points	7th = 1 point	8th = 0 point

Bonus Awards

Qualifying: Drivers will receive one point for starting in pole position for the first race of each meeting. **Fastest Lap:** One point for setting the fastest lap in each race. If two or more drivers achieve the same fastest lap time, each will receive one point. **Lead Lap:** Each driver classified as the race leader after Lap 1 will earn one point, with a maximum of one point awarded, regardless of how many times they lead during the race.

Fastest Qualifier in Qualifying = 1 Point
Fastest Lap in Each Race = 1 Point
Lead Lap in Each Race = 1 Point (Maximum)

Team Championship

Five teams will be formed, comprising Gold, Silver, Bronze, and Green level drivers. Team Championship points will be calculated based on each driver's championship points, with multipliers applied according to their level status:

Gold and Silver drivers receive a multiplier of x1.00, Bronze drivers x1.25, and Green drivers x1.50.

The points for each team will be summed and averaged using the Central Limit Theorem to ensure fair and accurate calculations. The team with the highest score in each round will be declared the winner, and the team with the most overall wins will be recognised as the Team Champion. In the event that two teams win the same number of rounds, the team with the highest total score will be deemed the winner.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Team Championship - Round 5											
Team	Car	Name	Game Tag	Div	Pt.	X	Pt. X	Drivers	Points	CLT	Total Wins

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Zenox Trophy Awards

The **Zenox Trophy** is exclusively available to drivers in the Green division. Points are awarded to those classified as finishers in the final race results. There are no Bonus Awards for this race. Points are allocated as follows:

1st = 6 points	2nd = 4 points	3rd = 3 points	4th = 2 points	5th = 1 point
----------------	----------------	----------------	----------------	---------------

For races that have four cars only, points will be granted as follows:

1st = 5 points	2nd = 3 points	3rd = 2 points	4th = 1 point
----------------	----------------	----------------	---------------

For races that have three cars only, points will be granted as follows:

1st = 3 points	2nd = 2 points	3rd = 1 point
----------------	----------------	---------------

For races that have two cars only, points will be granted as follows:

1st = 2 points	2nd = 1 point
----------------	---------------

For races that have one car only, points will be granted as follows:

1st = 1 point

For drivers in the Green Division who qualify for the Wildcard Qualification race or the Green Division Race (with a minimum of two cars on the grid), the driver will receive 50% of the points scored.

Wildcard Qualification Race

With increasing members in the SSMDG, the Championship now features over 20 drivers eligible for the 16-car grid in each round. To accommodate those who do not qualify for the top 16 places, the SSMDG is introducing a Wildcard Qualification Race. This 55km race will be conducted under Race 1 settings, with the grid determined by qualification positions starting from 17th place, requiring a minimum of three drivers to participate. If fewer than three drivers register, the race will be cancelled. The winner of the Wildcard Qualification Race will earn a Wildcard entry to the next round, starting according to their qualifying position. If no Race Stewards qualify for the main race, the 16th grid position will be reserved for race management purposes, with the driver who qualified 16th entering the Wildcard race. In cases where no Race Stewards participate in the Wildcard race, it will be conducted by a volunteer driver, with a replay recorded for reference. All race regulations and penalties applicable to the main race will also apply to the Wildcard Qualification Race, and any protests must be submitted in accordance with the established regulations.

Official Race Results

Network issues may arise during races, potentially causing race cars to flicker on the track and display inaccurate locations. However, the official results for both qualifying and the race will be determined based on the results shown in the race host lobby.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Invalid Race

If the race host lobby fails to display any race results after a time trial, and the race management is unable to retrieve the race results from a replay video provided by one of the race administrators, that race will be considered invalid. The invalid time trial will be excluded from the BoP calculation. The starting grid will be determined by the available time trial of the fastest top 16 drivers. If the invalid race occurred in the BoP Test Race, the race will be considered a re-race.

Race Recording

In cases where the race host lobby does not allow saving of the replay from the previous race, race management recommends that drivers use the "Save Recent Gameplay" function on their PlayStation. For setup information, please refer to the guide on capturing gameplay and screenshots on PS5.

<https://www.playstation.com/en-hk/support/games/capture-ps5-gameplay-screenshots/>

Championship Awards

The Championship winner will be determined by the total points earned by each driver across all eight rounds. In the event of a tie between two or more competitors, the driver with the highest number of race wins from Rounds 1 to 8 will be declared the winner. If multiple drivers have an equal number of race wins, the qualifying results will be used as the tiebreaker to decide the ultimate champion.

Race Settings

Start Type: Grid Start with False Start Check,
Grid Order: As Official, **Boost:** Off, **Tuning:** As Official,
Slipstream Strength: Real, **Visible Damage:** On,
Mechanical Damage: Weak, **Tire Wear:** (Qualify) Off,

Tuning Parts, Car Customisation and Settings

All drivers must adhere to the official Car Settings data on Tuning Parts, Car Customisation, and Settings unless instructed otherwise by the Race Stewards. The data indicated in **Red Highlights** must be strictly followed, while **Yellow Highlights** allow adjustments within the specified range. **Green Highlights** allow settings to be modified to suit driver preferences.

Following each race, the Race Stewards will inspect evidence of their tuning.

User Guide

<https://tinyurl.com/ytvij9kx>

To help drivers set up their race cars for the Championship, we have released a car settings calculator based on a well-tested GT7 Tuning Calculator from the UK. This tool is designed for use with Microsoft Excel and allows drivers to adjust various parameters, including spring and anti-roll bar stiffness, LSD settings, and Offset Spring Frequency. It also enables drivers to fine-tune the car's behaviour during corner entry, mid-corner, and corner exit to find the most suitable settings for optimal performance. Please remember that this file is intended for personal use only and should not be distributed to any third party. Ensure you download the original file before making any changes. If you require assistance in using the file, feel free to contact the Race Stewards.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Car Weight

The Championship begins with car weights allocated to drivers based on the ASPAR rating..

SSMDG Zoom Car Life RZ34 Super Cup 2025 Driver BoP, Car, Team & Sponsor Allocation

ASPAR Rating

The ASPAR (Average Score per Attended Race) Rating is determined by averaging the race points earned by a driver per race. This rating helps differentiate between driver performances and assists race stewards in achieving a better balance of performance, ultimately leading to closer and fairer racing.

SSMDG Zoom Car Life RZ34 Super Cup 2025 ASPAR - Round 5				
Pos	Car	Driver	Game Tag	AR ASPAR

22	Bem Ho	Panda_Specialist	20
21	Franco Wong	rocket_franco	10

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Success Weight Ballast

In the SSMDG Zoom Car Life RZ34 Super Cup 2025, a “Success Weight Ballast” handicap system will be implemented for drivers. If there are at least eight cars in a race, Weight Ballast will be added to the Base Weight (BW) of the top five ASPAR drivers according to the following allocations:

1st	2nd	3rd	4th	5th
BW +50kg	BW +40kg	BW +30kg	BW +20kg	BW +10kg

For races with fewer than eight cars, Weight Ballast will be added to the Base Weight (BW) of the top three ASPAR drivers according to the following allocations:

1st	2nd	3rd
BW +30kg	BW +20kg	BW +10kg

Weight Ballast is distributed based on championship positions and carried during Qualifying and Race 1. For Race 2 and 3, Weight Ballast is allocated based on the finishing positions in Race 1 and 2 respectively. If a driver did not attend the BoP Session, they will start Round 1 with a Weight Ballast of +30kg. Any drivers who join the Championship after Round 1 or were absent from the previous race round will start their Qualifying and Race 1 with a Weight Ballast of +30kg.

Balance of Performance (BoP)

The Balance of Performance (BoP) for Round 1 of ASPAR is calculated using the average time trial and the fastest race lap time recorded during the BoP Test Day. If the average lap time in Round 1 is 1% or faster than the BoP Test Day time, additional base weight may be applied to the BoP assessment. From Round 3 onwards, the BoP will be determined based on the qualifying lap times and the best race lap times from the previous two race rounds. Each driver’s BoP will be evaluated after Rounds 2, 4, and 6 of the Championship. Notably, the qualifying time will not be included in the calculations if it is slower than the slowest race best lap among the three races, provided the success ballast weight is equal to or lighter than the success ballast during the race. All drivers must adhere to the specified race ballast weight for their cars, with no tolerance allowed.

Minimum and Maximum BoP Base Weight

Each driver level must adhere to the minimum BoP Base Weight as specified.
while the maximum BoP Base Weight for all driver levels is set at 150kg.

Driver Level	Minimum BoP Base Weight	Maximum BoP Base Weight
Gold	75kg	150kg
Silver	50kg	150kg
Bronze	25kg	150kg
Green	0kg	150kg

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Car Livery

All drivers must apply for their main sponsor as per the Sponsor Allocation Listing on the page.

The sponsor's logo must be displayed as per the instructions given below.

Car Number
12% Size
RZ34 Logo
29% Size

A	B	C	D	E
A	B	C	D	E
A	B	C	D	E
A	B	C	D	E

Team ID
10% Size

Racing Number

All drivers must use the Number & Number Plate format as shown. You can search “#SSMDG” in the

Discover section of GT 7.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Driver Race Suit Livery

The design of the Driver Race Suit livery is not limited.

However, as demonstrated, sponsors' logos must be displayed on both sides of the sleeves.

Driver Nickname

To assist commentators in identifying drivers, full names must be used when applying nicknames.

Car Settings Verifications

Drivers are required to prepare and upload photos of their car settings to their designated folder in the official Google Drive two days before race day. The required photos include the Suspension settings, Transmission settings, and Tuning settings.

Suspension

Tuning

Transmission

Video Recording

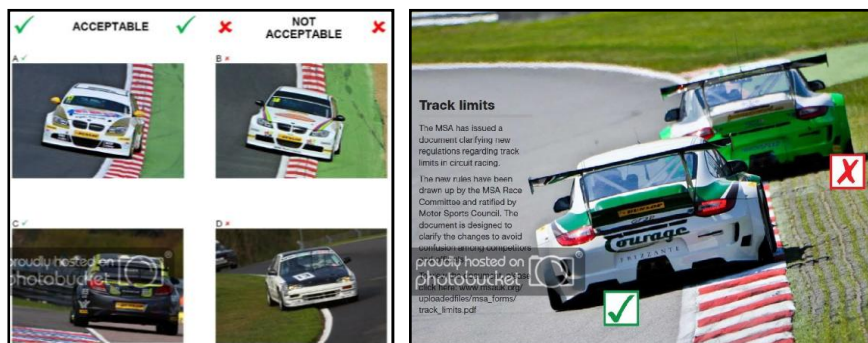

After completing qualifying and each race, drivers must record a short video of their car settings, following these guidelines. **Video Format:** Use the format shown in this video (<https://youtu.be/WIGGzB94YIU>) and upload the video to the dedicated folder in the official Google Drive announced in the SSMDG official WhatsApp group. **PS5 Users:** Record a one-minute clip demonstrating the suspension, transmission, and tuning settings pages using the video recording method shown in this video (<https://youtu.be/ijed9URRfEI>). **PS4 & PS5 Users:** You may record your screen with a mobile phone while navigating through the settings pages.

Violation

If a driver fails to submit the required video or if their car settings are found non-compliant with the regulations, Issuance of a recorded race reprimand and disqualification from race results may occur.

Exceeding Track Limit

All drivers are required to adhere to the track limit rule outlined below. While there is an AI penalty system in GT7, it may not consistently impose time penalties on drivers who exceed track limits. However, the Race Stewards will review the race replay and issue penalties to drivers found to have abused track limits during the race. Penalties may include reprimands and a minimum deduction of 5 seconds from the race result.

Time Penalty

During a race, if a driver receives a "Time Penalty," they must slow down at the "Penalty Line." The Championship also mandates that all penalised drivers must remain close to the pit line wall or follow the instructions provided by the Race Stewards before the race when approaching the "Penalty Line." Failure to comply with this requirement, resulting in an incident, will lead to a penalty of at least 10 seconds added to the final result, along with a reprimand recorded for the race.

Stopping on Course

During the qualification session, if a driver needs to stop on the course, they are required to do so only at the pit entrance or exit area. Stopping at any other position on the track is strictly prohibited. If a driver is found stopping outside the designated area, an additional 5% will be added to their qualification time, and they will receive a reprimand.

Example: Stopping Area at Fuji International Speedway

Track Limit

All drivers must adhere to the track limit rules set by SSMDG. Additionally, the race stewards will closely monitor the corners where track limit violations occur frequently. In case a driver is found to be gaining an unfair advantage by exceeding the track limit, they will be reprimanded and penalised accordingly.

Track Limit Guide video:

<https://youtu.be/E5BVlPeXUjw>

- Turn 12 – Apex
- Turn 13 – Apex
- Turn 14 – Apex
- Turn 15 – Apex

Note: If any driver is found using “Wall Riding” during the race, their result will be disqualified.

Overtaking

In racing, overtaking demands respect and caution from all drivers. It's crucial to avoid forcing a chasing car off the track by ensuring sufficient space and refraining from changing your line in the braking zone. If an attacking car is alongside entering a corner, drivers must adjust their line to prevent contact. Blocking is prohibited when the attacking car has an overlap, defined as their front being next to the B Pillar (about half a car length) of the defending car. Additionally, excessive divebombing is not allowed.

Race Line

Participants can change their race line once to protect their position, but excessive weaving and blocking are prohibited. When re-entering the track after an incident, drivers must exercise extreme caution and not defend against other cars approaching at a higher speed.

Mitigating Slipstream Advantage

Drivers are prohibited from making sudden or unpredictable movements to minimise the slipstream advantage of a trailing car. They must maintain a predictable driving line, enabling other drivers to anticipate and react accordingly. The regulation enforces a one-move rule, allowing drivers to make one defensive move to protect their position while prohibiting continuous or reactive weaving. Safety considerations prioritise actions that prevent collisions or dangerous situations. Penalties for violating this regulation include warnings, time penalties, or disqualification.

Wall Riding

Drivers who ride the outer wall to gain an unfair advantage will not be tolerated. Any driver found deliberately using the outer wall for this purpose will face penalties, which may include time penalties and race disqualification. This rule is designed to ensure fair competition and maintain the safety of all drivers on the track.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Rage Quitting

As part of good sportsmanship, drivers must refrain from rage quitting during a race. Any race-related incidents should be addressed after the race through proper channels, such as a race protest or by consulting race management. Drivers found to have rage quit during a race will be disqualified from the event and issued a race reprimand.

Practice in between Races

After the qualifying race, drivers are prohibited from participating in practice sessions between races unless they receive approval from the race stewards. Any driver found on the track between races without such approval will face a reprimand and a deduction of one championship point.

Penalty

All drivers must adhere to the basic race etiquette outlined above. In cases of racing misconduct, the Race Stewards will impose penalties based on the severity of the incident. A **Minor Penalty** results in a 5-second deduction from the final race result, applicable to incidents like exceeding track limits or causing an opponent to lose control and position. It may also include minor on-track incidents involving two cars that can be resolved by swapping finishing positions post-race (within five seconds). A **Major Penalty** incurs a 10-second deduction from the final result, typically for incidents that cause an opponent to lose control and position off the track. A **Serious Penalty** leads to disqualification from the race, applying to serious driver misconduct and non-compliance with car and race settings. This penalty encompasses any behaviour that violates the race's rules and regulations.

Definition of Incidents

The term "Incident" encompasses any event or sequence of events involving one or more drivers, as well as any actions taken by a driver that are reported to the stewards by others. Incidents can include a range of situations, such as causing a collision that disadvantages other competitors, forcing a driver off the track, illegitimately preventing a legitimate overtaking manoeuvre, or impeding another driver during overtaking. Additionally, dangerous driving behaviour, using in-game text chat during qualifying or race sessions, and exhibiting a lack of respect—such as using foul language or displaying a negative attitude toward other drivers, Race Stewards, or spectators—are also classified as incidents. Other examples include violating track limits and using incorrect car settings.

NASA Club Codes and Regulations Referral

For issues concerning driver conduct and decision-making related to racing incidents, the Race Stewards should consult Sections 25, 26, and 27 of the NASA Club Codes and Regulations. Section 25 addresses on-course conduct, outlining expectations for driver behaviour, including flag observance and overtaking rules. Appendix A (Section 26) discusses procedures for analysing racing incidents and making informed decisions, while Appendix B (Section 27) provides definitions and a structured decision-making process for evaluating various types of collisions and penalties.

For more detailed information, refer to the complete document.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations

Post-Race Video Review

After each race, the stewards will conduct a post-race video review, focusing on key race incidents within the time limitations and constraints of the Gran Turismo 7 race replay function. If a driver violates rules or demonstrates unsafe driving behaviour, penalties such as time penalties or disqualification may be imposed. The stewards will promptly communicate these penalties to the involved drivers, clearly outlining the violation and its consequences. Drivers have the right to appeal any penalties within 5 minutes of receiving the notification.

Method of Protest

Drivers must submit a race protest request within five minutes of each race's completion. To initiate a protest, they are required to provide video evidence of the incident, including at least two videos: one from the perspective of the protesting car and the other from the protested car, clearly specifying the lap and corner number. This evidence should be sent via WhatsApp to Race Steward Franco Wong. The Race Stewards will review the race replay, announce any penalties, and provide the protested car with an opportunity to appeal before the next race begins. Each protest will incur a fee of "Two" championship points, which may be refunded only if the protest is upheld. If the protest is rejected, the fee will not be returned.

Addition Championship Penalty

Any driver who receives three reprimands will incur an additional penalty upon the third reprimand, requiring them to start the next available race from the rear of the grid and resulting in a deduction of three points from their Championship tally in the Driver Championship. Reprimands will remain valid on a driver's record for six months from the date they are applied. Upon receiving a fourth reprimand, the driver will face a one-race ban at the next available event; a fifth reprimand will result in a two-race ban, and a sixth reprimand will lead to a three-race ban. A seventh reprimand will result in exclusion from the Championship for the remainder of the season. Additionally, every reprimand from the third onward will also include a deduction of three points from the driver's Championship tally. Drivers must carry the appropriate Championship/Success Ballast for the race they would normally have started prior to any penalties being applied.

Minor on-track incidents affecting only two cars, which can be easily rectified by swapping their finishing positions post-race within five seconds or have already been fully addressed within one lap by the offending driver, will not necessarily warrant a reprimand. To encourage proper racing conduct, drivers can cancel out their reprimand after completing two consecutive clean races, at which point the Race Stewards will delete the oldest reprimand from their record.

Race Reprimand

Reprimand Record

Car Spatial Reference

Please refer to this diagram to help drivers accurately perceive the spatial dimensions of the race car while using the front-end camera view. The diagram illustrates the approximate width of the tyres, highlighted in yellow, with the inner edge of the tyres marked by a yellow dotted line. The outer edge of the car is indicated by a red dotted line. We strongly recommend that drivers utilize this visual reference to enhance their spatial awareness during races.

More Detail

https://www.gran-turismo.com/us/gt7/apex/for_beginners/02

Use of Radar Function During Racing

All drivers must maintain appropriate distance from other cars on the track and manage their cornering speed effectively. Additionally, it is essential to utilise the radar function during races to minimise the risk of accidents.

In Race Communication

All drivers must use the Zello app on their phones for easy communication during the race. Link to SSMDG channel <https://zello.com/ssmdg2018>

In the main race, all 16 drivers must use the "Party" function on PlayStation with the microphone turned off for easy communication and to avoid applying team orders.

Sponsorship

SSMDG has acquired sponsorship to support the SSMDG Zoom Car Life RZ34 Super Cup 2025.

SSMDG Zoom Car Life RZ34 Super Cup 2025 Race Regulations
